# Project Summary Template

This document is intended to provide a summary understanding of the high-level vision of your project goals.

| | | |
|---|---|---|
| **Company Name/ Team Name** | Laily Ajellu | |
| **Company Address** | 146 Kendal Ave, Toronto, ON M5R 1M3 | |
| **Company Website** | https://www.georgebrown.ca/ | |
| **Telephone** | (416) 415-2000 | |
| **Company Contact/ Team member names** | Samin Qureshi, Soman Ahmad, Pierre-Anthony Eid, Talalovic Ababakar | |
| **Title** | Social Media App | |
| **Company Email/ Email address for all team members** | soman.ahmad@georgebrown.ca<br>pierre-anthony.eid@georgebrown.ca<br>samin.qureshi@georgebrown.ca<br>talalovic.ababakar@georgebrown.ca | |
| **Telephone** | "Every Group Project" - Discord | |
| **Project Title** | LMNL.app (Short for LIMINAL) | |
| **Project Description** | **About the company:**<br>Our mission is to connect individuals and organizations in an impactful way.<br><br>**About the project:**<br>LMNL.app is a social media app where quality matters more than quantity. LMNL sets hard limits on the number of posts an individual can make, as well consume and interact with. With such limitations, users are inclined to be selective with what they post, who they follow, and how they interact. The selective nature allows for a more impactful form of communication. | |
| **Problem/ Opportunity Assessment *** | *Please describe current state problem/opportunity that describes the nature and extent of the problem (factual, quantified, concise), or that outlines a chance for advancement or progress.* | |
| | 1. Oversaturation | 1. Sea of social media apps and platforms, all with similar or overlapping features. |
| | 2. Endless content | 2. Most mainstream social media apps are seeking infinite attention from its users with highly optimized and endless scrolling algorithms. |
| | 3. No limits | 3. There are no limits, or any inherent value to interactions performed by the user. Diminishes value of the user's time. |
| **Desired Project Outcomes/ Requirements*** | *Define how this project shall address a business need, e.g. the business problem or opportunity described above; describe what the beneficiary must be able to do / receive from the solution* | |
| | 1. Minimalistic UI | 1. Our project takes a different and minimalist approach to the app's user interface, keeping overwhelming colours, advertisements, and animations to a minimum. |
| | 2. Fixed feed | 2. We only show users a fixed finite number of posts per a |

| | | |
|---|---|---|
| | 3. Limited interactions | given period. Eg user may post 1 personal post a day and may view up to 10 other users' post a day.<br><br>3. There are set limits on the interaction users can perform such as likes and comments. Up to 5 likes and 5 comments on a given day. |
| **Key Deliverables to be produced by students*** | *Define the boundaries of work that you expect to receive from the students effort (vs. internal effort)* | |
| | 1. Mobile Application<br><br>2. In-App Authentication and Authorization<br><br>3. Limited Interactions<br><br>4. Locally Integrated Database | 1. Functional iOS & Android app (accompanying web app is a bonus), locally hosted, with potential to release on public app stores<br><br>2. Full-fledged user authentication and authorization system<br><br>3. Ability for users to view posts, create posts, and interact within the defined limits of the app. Limitations include 10 posts per feed per given day, 5 likes, and 5 comments.<br><br>4. Capable of storing and fetching data in an optimized fashion based on interactions with our API. |
| **Desired Start Date** | Monday, September 16, 2025 | |
| **Desired End Date** | Friday, March 28, 2026 | |
| **Attachments** | *List attachments that support project description* | |
| | 1- UI/UX Wireframes | Sketches or mock-ups of the app's user interface and navigation flow. |
| | 2- Feature Requirement Document | Breakdown of app features, limits, and functionality specifications. |

* Please add fields as required
